JOSEPH L. YOUNG/Ethereum:

The keyboard/flute ace known at all the better neo-hippie/new age hot spots brings his chops to bear on his fourth album that sets some new age standards. Trippy while being more than hippie dippy, this is inner-space music for the seeker that needs to chill out with something else than a bottle of wine after the end of a long day. Well-played and well-produced, this is a set for the seeker that thinks they have heard it all and wants a pleasant surprise.
